Subject: Greyhounds are more than a sport

Dear Director,

I urge the government to please do something to help better the standards that these creatures have to live with. These are beautiful, intelligent and most importantly, compassionate beings that don't deserve to be commodified and abused.

Read the stories about what happens to these dogs behind closed doors and then imagine if it was your beloved dog or other pet in those situations. Or you or your child. No living thing deserves to be treated this way. If we could love these dogs with a fraction of the unconditional love they pour out of their heart then everyone would be better off!

Please and Thank-You.

Sincerely,

Max Moon
