## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

**Name:** Mr Kevin Fidock

**Date received:** 15/02/2013

---

I strongly believe that if we do not maintain the current status for marriages our society, which has upheld this current definition for all time, will disintegrate. The family structure as we know it will slowly change and with it bring confusion to the upcoming generations.

I don't believe this has anything to do with discrimination or peoples choices to live how they desire but it is more about our culture and society as human beings. There will always be people who want to be different but we don't need to change our laws to make them feel better about themselves. We need to look at the bigger picture and not get taken up with a dramatic loudly spoken minority who tend to have no room for understanding the opinion of others.
