INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Eliza McDonald

Date received: 5/11/2013

Dear Director,

I am a student at the University of Sydney studying a Bachelor of Animal and Veterinary Bioscience thus the health and welfare of all animals is very important to me.

After hearing about the recent doping and culling of greyhounds in the racing industry, I was absolutely appalled and wanted action to take place to protect these beautiful creatures against those responsible.

These innocent animals do not deserve this terrible treatment so I urge you to please take action and prevent any mistreatment in the future.

Sincerely,

Eliza McDonald
