Re: Inquiry into and report on the management of public land in New South Wales

The Barrington Tops National Park is just up the road from me.

I like the National Park in my area the way it is.

The ecosystem is protected by the National Parks which is important for the future.

I don't want motorbikes or firearms destroying the serenity of my wilderness experience.

I don't want logging in National Parks. I want trees left to grow big and old. I don't want undergrowth trashed by bulldozers.

I'd rather see more government funding going to National Parks so they can all be well managed.

Samuel New,
