Dear Mr. Frappell,

We are writing this letter in opposition to proposed sale of Snowy Hydro. As a keen cross country skier and bush walker I am reasonably well acquainted with the Snowy Hydro scheme. I along with a lot of other people resent the selling off of a public institution that we own. Surely the positives of retaining Snowy Hydro such as income stream, environmental protection and water allocation protection, out weigh a short term financial gain to the government.

Please make sure the committee is aware of the public's pride of ownership of Snowy Hydro as well as our perception that this sale is being pushed ahead regardless.

Yours sincerely,

Ross McMillan
