

INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 16/10/2013

Partially Confidential

I am particularly concerned about the following issues and urge the committee to investigate these further:

- The high numbers of greyhounds that are euthanased each year, and possible incentives or methods to reduce this number
- adequate detection and prosecution of those found guilty of animal cruelty
- the need for establishing and enforcing better standards of animal welfare within the industry
- the export of greyhounds to countries who have no adequate animal welfare law enforcement
