

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 15/02/2013

Partially Confidential

I strongly support retaining the traditional & current definition of marriage. This offers a stable, balanced environment for children & a stable foundation for society. To change it to please a minority is unjust & at great cost to the majority & would serve as a precursor to demands for recognition by other minority groups. Such relationships can exist without having to change the long standing understanding of marriage we have lived by until now. Please work to protect this vital institution
