Summary

Good Afternoon,

It is about time that all pubs and clubs became smoke free in New South Wales. After all the majority of people are non-smokers. The majority rules in my book.

I won't go to pubs or clubs that allow smoking. To have some smoking areas is a cop out - does the smoke know where to stop?

To say non- smoking will affect income for hoteliers is pandering to the tobacco industry.

This was said about restaurants and cafes prior to the smoke ban. I know this is not true.

Just look at California, New York and Southern Ireland.

They are smoke free.

Don't let the tobacco industry bully you, they are not worth it. They don't care.

Thank you

Norma Daisley
