INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Andriy Kostyuk

Date received: 6/02/2013

Sirs,

As Australian citizen I respect rights of everyone to choose the way they live, but I see unacceptable to change definition of marriage as this institution holds the society for milleniums. If you want to redefine marriage and see how well it goes against proven working model, please, resettle homosexuals into some island and wait until they extinct to prove that their model of marriage is not sustainable. If Australia wants future it needs sustainable family model, which naturally occurs to be the current straight model. Please, do not change the marriage definition or its status.

Kind regards,
Andriy Kostyuk
