

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mrs Colleen Bender

My husband and I both have very strong feelings about changing the law to encompass same-sex marriages. Our Federal Parliament agrees!

We feel that a child has the right, (and need), to both a female mother and a male father, as it has always been in in the past.

We wonder what gives parliaments and governments the rights to change laws to allow people of the same-sex gender to come together and say they are "married?" It is just not good for society or a child.

We do not want NSW to introduce a law of same-sex "marriage".
