INQUIRY INTO HOME SCHOOLING

To: Legislative Council Home Schooling Inquiry

I would like to make a submission to this Inquiry.

I have known my cousin who is 43 years old all my life. I am also the same age. She has been home schooling most of her children for the past 10 years.

Whenever I have seen her children they all seem to be very happy and confident children. They are also very respectful and possess great communication skills.

Also, most of the children my cousin has home schooled, have ended up going to selective high schools. So, she must be doing an amazing job educating her children, otherwise they wouldn't be on top in their academic studies.

I have also been impressed by the social aspect of home schooling. When children are home schooled correctly, they get to interact with their peers and do a lot of stimulating activities.
