

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

A marriage must be between a man & a woman. This is the nature. So a man & a woman can reproduce to have children. The children have a father & a mother. This is the basic of a family. If a marriage is between 2 men or between 2 women. They cannot reproduce to have children. So they have children the children will have 2 fathers or 2 mothers. This is ridiculous. This is against the nature.
