

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 16/02/2013

Partially Confidential

For centuries marriage has been an institution towards a family based on Mother Father and children. This unit as a whole and individually gives the children a sense of security and the parents the responsibility of maintaining and nurturing the health and protection of the family. I feel that changing the Definition of Marriage does nothing to add to the feeling of security that is a human right or to aid families in the wellbeing of their social environment.
