INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Malcolm Bleeker

Date received: 16/02/2013

Malcolm Bleeker

All the social research relating to same sex partnerships is concerning, rates of breakup, rates of domestic violence, high rates of drug and alcohol usage, high rates of pedophilia relating to homosexuals.

If same sex people wish to get married they may wish to raise children. Why as a society are we going to deny these children from the very beginning no access to one parent. I think this breaches children's rights to know both parents. Clearly and research would say the same thing a child requires a male and female to develop into a healthy well adjusted person.

I say don't deny children their basic rights to know both parents.

Malcolm Bleeker
