**INQUIRY INTO PERFORMANCE OF THE NSW
ENVIRONMENT PROTECTION AUTHORITY**

Name: John & Juliet Merlov

Date received: 28/08/2014

Dear Sir.

There is a constant pressure from the business lobby for reduction in regulations which protect the environment. Consequently, a government oversight body such as the NSW Environment Protection Authority with very strong resources is necessary.

We urge the NSW Government to give this body more resources in the form of funds, independence and legislative authority so that it can conduct its work more effectively.

Yours sincerely,
John and Juliet Melov
