Summary

From: "Carol Young"
To: <crosscitytunnel@parliament.nsw.gov.au>
Date: Sun, Mar 26, 2006 8:32 pm
Subject: Letter of discontent and dispair

Being a long time resident of Paddington and I am absolutely infuriated at the disruption, inconvenience, and cost (in time and money) that this has caused and I would like to add my name to the growing list of people who are prepared to boycott and voice their disapproval and the flagrant abuse of public money.

Residents in the East now find it almost impossible to get to the city, city north, the rocks, North Sydney because of the disruptions to William Street and Woolloomooloo.

A \$10 cab fare is now \$15+ because the lights are also now not sync'd. Walking to the city (which I do daily to and fro from work) is now a demilitarized zone with construction workers, extra traffic that can now not use the roads thru Woolloomooloo.

Residents will continue to boycott using the tunnel and more and more people will vent their frustrations against the stupidity of these moves by the Government that clearly do not have their best interests at heart.

I am only one voice - there are many...

Carol Young
