

INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr Peter Irvine

Date received: 15/02/2013

This submission is to encourage you to leave the basis of marriage between man and woman as it is. This has been in place ever since we have existed and crosses all religions, ethnic groups. It provides the basis for stable communities and has proven the test of time..

The State Government has no authority to waste time and money in this type of review as they cannot legislate in this area so should spend time and money tackling the areas they have responsibility for and can make a positive change in the community.
