SUBMISSION RE: SAME SEX MARRIAGE

Marriage is about companionship and union between two willing parties and because of the who we are and thus as long as same sex marriage is illegal we don't have EQUALITY but an outright discrimination of our basic human rights and that is freedom of choice. I am one who loves in a same sex relationship and all I want is the right by law to choose like heterosexual people do!!! We are discriminated against in 2013. Let's get with the life of today and stop ignoring that our human rights are ignored here and Give us same sex marriage as a option in a legal form.

Legalise same-sex marriage
