INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Mr John Faust

Date received: 8/02/2013

The mere fact that a family tree has two fathers or two mothers begs the question of legitimacy for future children and heirs! To expect the Marriage Act to cover this opens a whole new can of legal worms! The Marriage Act between a man and woman is by far the most comfortable way to procreate and keep things straight! If Islam has it's way in this country as it appears to be doing in a lot of others with Sharia law being introduced, Gays of any description will probably be in their future be stoned! So, apply the KISS method! Keep It Simple Stupid! Besides that they are only a very vocal tiny minority anyway?
