I find it absolutely deplorable that the government would waste taxpayers hard earned money in such a careless fashion. I as a complete novice, look at our new canteen structure and find it ridiculous that a building no bigger than a small garden shed could possibly cost \$600,000 to build. How are the people whom staff the canteen meant to store, prepare and sell food in such a tiny structure? This new structure is to serve the children of Tottenham Central School for many years to come, so why should we lay down and accept an inferior structure, that does not meet the needs and demands of our community. Just because we live a long way west of the Blue Mountains, does not mean we are not important.
