INQUIRY INTO GREYHOUND RACING IN NSW

Name: Mr Lars Dudman

Date received: 6/11/2013

Dear Sirs, While not particularly enjoying the practice of dog racing myself, I do not consider the option of banning the activity itself, moreover, I write to ask that it be regulated. Regulated to the point where each dog is registered with an independent authority (or it cannot enter a race), assessed prior & post race, has a 'bond' type payment placed on it to ensure it has the funding to be cared for once it can no longer race and tracked to ensure compliance. Finally, compliance by all those who wish to race dogs or they must be banned from the activity of racing.

This is simply the simple, humane & respectful way to look after lives at our mercy, especially when they are used for the purpose of financial gain.

With respect, I hope you take the time to consider my thoughts on this matter.

Regards,

Laars Dudman
