To Whom it may concern

I am writing this submission in regards to the issues facing Grey Hounds and the industry of Grey Hound racing. This industry affects these dogs so dramatically in so many ways. I am very concerned about the doping of these beautiful dogs just to try to win and the health effects that this has on the poor dogs' body. The over breeding and slaughter of these poor dogs is unacceptable and inhumane. Why has this been allowed to go on for many years without any action being taken? Why is money always considered over ethical treatment? Please do listen when I say that this is not right on so many levels. Please do something about this horrific problem and give these poor dogs a voice. We cannot turn a blind eye forever. People doing the wrong thing need to be accountable and new laws and legislation have to be made and enforced. Thank you for your time.
