THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Mr Rex Broadbent

Date received: 27/09/2008

- * Keep cars out of Sydney CBD.
- * Make public transport free.
- * Baulkham Hills Junction: replace shops with multi-storey commuter parking with shops on the ground floor.

Baulkham Hills Junction (BHJ) is at the entrance to M2. Overcome the "keep the houses like they were 30 years ago" mentality. To have people living high-rise within walking distance from buses (at BHJ) would eliminate thousands of cars blocking the roads from Windsor etc.
