

**INQUIRY INTO PERFORMANCE OF THE NSW  
ENVIRONMENT PROTECTION AUTHORITY**

**Name:** Ms Judith Turley

**Date received:** 28/08/2014

---

Dear Sir/Madam,

We don't want the fox in charge of the hen-house. It seems we can no longer rely on the EPA to keep a close eye on industry. Please give the EPA the funding and expertise that it requires to do the job properly. Thousands of volunteers are working tirelessly to protect our environment from greedy developers, industrialists and miners. Without an effective EPA, their work is often in vain.

Remember, it could be the health of you or your own family and friends that could be under threat!

yours sincerely  
Judith Turley
