THE TRANSPORT NEEDS OF SYDNEY'S NORTH-WEST SECTOR

Name: Mrs Kerry Wallace

Date received: 15/10/2008

The Windsor Road upgrade was a great event for our area, but the fact that Showground Road was not widened as well just created another bottleneck at the junction of these 2 roads and other roads leading onto these.

Baulkham Hills and surrounding suburbs has been neglected for far too long and with the Government opening up new shopping centres and new housing estates we desperately need a decent transport system to cater for our area. Labour areas would not be asked to put up with the transport system we have to endure, you would probably have rioting in the streets.
