INQUIRY INTO GREYHOUND RACING IN NSW

Name: Ms Roxanne Conway

Date received: 6/11/2013

Dear Director,

I live near the dog track. Do you know how many greyhounds I've found? Most of them thrown from their vehicles suffering massive injuries because they're no longer winners...

The guy down the road, his greyhounds live in crates in an old tin shed. What kind of life is that? Can you imagine the summer time when the tin shed heats up? Most of the dogs cook from the inside out and end up in the garbage bin.

The greyhound racing industry is disgusting. There is no regard for the health or well being of these animals.

Sincerely,

Roxanne Conway
