Dear Sir/Madam

I have read as much as I can about coal seam gas mining & I have concluded that ultimately the processes involved have not been fully tested.

And it seems that drilling may, take place and is, in fact taking place, on land which should have agriculture as its primary use.

Therefore I demand the creation of a moratorium on all forms of coal seam gas drilling in NSW, and also on any additional production leases being issued across this State.

Yours Sincerely

Mrs M Lacroix
