

## **INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW**

---

I would like to submit the following strongly held view relating to same sex marriage.  
This matter should be handled at a federal level. We do not want different definitions of marriage in different states of the commonwealth. If there has to be a debate it should be decided on a federal level and decided by a well informed debate and a referendum.  
I strongly believe that Marriage should be the committed union of one man and one woman to the exclusion of others.  
I strongly oppose the idea of raising children in same gender marriages.
