**INQUIRY INTO PLANNING PROCESS IN NEWCASTLE
AND THE BROADER HUNTER REGION**

Name: Mr George Patsan

Date received: 26/09/2014

My submission is for growth and support the light rail system and the opportunity to attract investment and real change especially for Hunter st & the CBD. As being a resident for 40 years the prior labor government did nothing to improve the progress of the city! The last 5 years I have seen the CBD coming to life with parties joining together and providing real change and decisions to attract more people and more opportunity to this beautiful city. We want change and it is gaining momentum we are sick and tired of minority groups stalling this beautiful city and we have the capabilities to move into the 21st century and becoming a smart city.
