Subject: Please act against greyhound racing

Dear Director,

It speaks volumes about our society that our current form of "entertainment" is watching helpless animals run on a track.

It speaks even more of our cruel nature that these dogs are mistreated in life and killed with brutality that would be considered illegal if extended to a family pet.

I ask that you explore the nature of this industry with depth and vigour. Greyhounds have no way of protecting themselves against such treatments.

If people insist on being entertained by racing animals, it is up to us to ensure that these animals are at least treated with dignity and respect.

Sincerely,

Mem Davis
