

**INQUIRY INTO PERFORMANCE OF THE NSW
ENVIRONMENT PROTECTION AUTHORITY**

Name: Mr Jamie Blacklaw

Date received: 28/08/2014

Dear Sir/Madam,

It's patently obvious to even the most unaware that you do not serve the MAJORITY agenda. You know, the ones who do not benefit in ANY way from having their environment destroyed?

In fact it would be counter intuitive, like a death wish to actually agree with many of the EPA's anti-environment decisions.

The EPA consistently fails to regulate, prosecute polluters and stop environmental breaches...logically why would that be?...duh?

The community looks to this inquiry to see if it's even possible for the EPA as it stands to do it's job.

Yours sincerely,
Jamie Blacklaw
