**INQUIRY INTO THE PRIVATISATION OF PRISONS AND
PRISON-RELATED SERVICES**

Name: Mr James Eastlake

Date received: 25/02/2009

A couple of my work mates and I were just speculating where the Privatisation boogie man might end. Are we such an incapable nation that we cannot even run a prison for our criminals? When there is nothing left to sell, will the Government sell us off to the Chinese as pet food. Should we provide subsidies to the Chinese to set up a mincing plant in NSW so they can mince us up over here to save sending us to China as live exports. Half my wages go as tax and the govt cant even run some prisons. Perhaps we should sell our politicians. Though it might be difficult to find an interested buyer. Pet food mabye?
