INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Subject: SAME SEX MARRIAGE

Dear Honourable Members,

Firstly, I would trust that any law on marriage should only come under the auspicious of the Federal Government, to have individual state regulations would save only to further complicate matters.

Finally and foremost, God decreed and instigated that Marriage was to be the union of a man (male) and a woman (female).

The cohabiting of same sexes has been de-criminalised and unions have been recognised in law- so why the push to use the word MARRIED? I understand that folk affected and their kin are upset- I shall be equally upset if the ruling is changed- why upset me?

I sincerely request your goodselves to search your hearts as to the merits for leaving good as it is- Marriage is between a man and a woman. The next step if the change was successful would perhaps be "threesomes", then why stop at "humans"?

I trust that the status quo remain- Marriage=man+woman.

Sincerely
