INQUIRY INTO SAME SEX MARRIAGE LAW IN NSW

Name: Name suppressed

Date received: 31/01/2013

Partially Confidential

I making this submission on behalf of the many friends, family and people across NSW who are in happy same-sex relationships but do not hold the same rights as I do, to marry a person whom they love. I for one, love the (mostly) generally loving and accepting culture that Australia and NSW have between people of different cultures, migrants etc. We are a generally accepting, friendly nation. Our downfall I believe, is not allowing the right that each person of this country should have; equality, based purely on religious beliefs. I for one do not want to be a part of a country where my friends and family do not have the same rights as I do, hence why I am filing this submission. Please, consider these submissions for the benefits of these people that do not have these same rights as I.
