**Subject:** submission re. pacific hwy

To the Committee,

Dawn has broken and the sun is rising over the distant ocean. It's as if a conductor has raised his baton and given the signal --- an absolute cacophany of sound bursts forth as native Australian birds greet the day.

The astounding beauty and grandeur fills my heart until it's almost bursting --- astonishing and breathtaking still after 18years to be in such a rare,unspoilt, unsullied and energetic part of Northern New South Wales.

This land has healed many distraught and battered souls. They come here for a time, find their peace and return to their lives. The land and all it's many varied inhabitants all play their part --- they (the native fauna and flora ) have changed many a persons perspective on life --- for the positive.

This land is Wardell Mountain Blackwall Range --- R.T.A. route options A.B.& C all run directly below it.

This spells --- TOXIC WASTE, POISONED WATER, HORRENDOUS NOISE & ENORMOUS ROAD KILL & HABITAT DESTRUCTION. A unique environment irremissibly laid waste --- denatured dead land. Whose progress is this? For the greater good of whom? Certainly not the communities and natives of NNSW or the future generations.

Upgrade EXISTING Highway with minor deviations around villages.

I extend an invitation to one and all to come and experience dawn on Blackwall Range

Sincerely yours,

Angela Davison
