Dear Mr Khan

I write in response to your recent letter concerning the Inquiry into the 2009 Mt Penny return to order.

In 2009 I certified that to the best of my knowledge searches had been conducted and there was no documentation held by the Major Projects Coordination Branch covered by the terms of the Standing Order 52 resolution. I have no reason now to believe that the searches conducted at the time were not accurate and thorough.

Thank you for your invitation to provide a submission into the Inquiry.

Yours sincerely

Dianne Leeson
Assistant Director General
