I believe that marriage should be defined only as between a man and a woman. This has been our definition of marriage that has provided the best environment to raise a child and this comes as no surprise because a child is a product of a man and a woman. I believe that stability in a marriage comes from the qualities and character that a man and woman bring to the relationship and that stability in marriage contributes to better families and a stronger society. I think this should remain a federal matter and that the definition we have of marriage to be only between a man and woman should remain.
