

INQUIRY INTO CHILD PROTECTION

I am submitting this to say that my son was taken in 2010. I have kept in contact and expressed my wish to be reunited. I have only seen my son twice in 5 years. Everytime I ask there's always something in the way, they make excuses with no real reasons. He is currently with foster parents who are using the system to adopt a child a a lesbian couple. They have had my son there by himself for 5 years and had no other foster children. I've been told I don't have any rights. I've had to send several emails to Brad Hazzard the minister just to get an assessment done to look at visitation with my son . I recently been made aware that I'm not the only parent who have fallen victim to a corrupt system. I'm asking for any help I can get.

Sincerely
