The family and community services Campbelltown office have failed and torn apart my children and I ,

I was in a domestic violence relationship and my children were taken away from me they were all healthy , I looked after the mad best as I could while I was in the controlled relationship , I was unable to call out for help or call the police , Facs Campbelltown came in and removed my children , didn't help me and the kids for not even one day ☹, they left me in the house with the violent offender and treated me as a perpetrator ,

When I applied at the court for a section 90 to bring my babies home , the judge stated that Facs should have helped me for 6 months but they DIDNT .

They placed my kids with a carer who has been smacking them and bribing them , she has been brain washing my oldest son and telling them that I am not there real mum and while they are living with her I am a stranger,

Told them I didn't feed them , and that I don't love them, I have not given up on my children since day one for Facs getting involved, I never would give up on them , I gained restoration of my four children and they will be home in my full time care very soon , the restoration is being fast tracked due to the carer Bribing my children to not attend visit.

And giving them false information.

More assistance and investigation needs to be provided before removing the children from there biological parents , removing the children from their biological parents will traumatis the children more then they already may be :(
