

INQUIRY INTO CHILD PROTECTION

Name: Name suppressed
Date received: 22 June 2016

Partially
Confidential

To whom it may concern,

Just wondering who I should direct my concerns to ?

I personally have now twice suffered at the hands of DHHS child protection.

Most recently accusations made by my x partner led to my children being removed by the department for investigations to take place . It took 8 months . My children were abused in foster care .

Court reports are written by perjury and submitted to courts . The people writing the reports are exempt from any accountability of accuracy or ascertaining facts . They then use the decision made by the magistrate based on these reports as evidence there was need for their involvement.

There is a massive loophole in the system and our next generation is feeling the full brunt of it .

Yours Sincerely
