INQUIRY INTO CROWN LAND IN NEW SOUTH WALES

Name: Name suppressed

Date received: 17 July 2016

Partially
Confidential

I believe the value and conservation and of crown lands to be a critical issue of our times. We are facing extinction of many of our native species as well as the many migratory species because of habitat loss. They must be retained for future generations to enjoy - they are not something to be profited from by an elite few.

I would like to see more Indigenous involvement in their maintenance and conservation. Nature should be valued for the priceless treasure that it is - we have already destroyed so much and when it is all gone we will face extinction ourselves. Please do not allow any more damage to occur.
