INQUIRY INTO CROWN LAND IN NEW SOUTH WALES

Name: Mr Paul Jackson

Date received: 22 July 2016

Please don't sell off any Crown land. Our environment is being destroyed and proposals such as reviewing all TSR's and reserves and transforming the Crown Lands Division into a Public Trading Enterprise will continue this tragic process.

Why? Because the dollar is more important than the future of environment, our wellbeing, and our children.

So short-sighted, and if this goes through you will always be part of the legacy that helped destroy this beautiful state.

Yours sincerely

P Jackson
