INQUIRY INTO CROWN LAND IN NEW SOUTH WALES

Name: Ms Julie Marlow

Date received: 25 July 2016

I implore those members of the NSW Legislative Council conducting the inquiry into Crown Land, to please make the responsibility current generations have to future generations the basis of your recommendations. The threat posed by climate change and other human impacts on the natural environment, such as degraded soils, waterways and forests, combine to put the well being of our children and our children's children at serious risk. Only if our Crown lands are kept in public ownership, thoroughly mapped and assessed and managed to properly preserve their natural values, can our responsibilities to the future be met.
