INQUIRY INTO CROWN LAND IN NEW SOUTH WALES

GENERAL PURPOSE STANDING COMMITTEE NO. 6

I support the Government Response to Crown Lands Legislation White Paper. It makes sense to place a lot of Crown lands into local council hands bringing it closer to the people who are most likely to make the most use of the lands. With resources limited and competition for these resources only getting stronger it also makes sense to put some parameters around the use of Crown lands to benefit all. I think the Government is correct in its proposed approach.
