**FIRST REVIEW OF THE WORKERS COMPENSATION  
SCHEME**

**Name:** Mr Peter Turnbull

**Date received:** 28 August 2016

---

In 2011 whilst working with nswa I sustained an injury on duty. I was obstructed in my rehabilitation by the insurance company by continually delaying payment to therapist, IME doctors reports, and ambulance return to work coordinator , rehab coordinator and insurance case managers lying. I was subsequently medical retired but received minimal compensation under workers comp. I lost everything having to sell my home to avoid bankruptcy, living in my car for over 2 years. No futur compensation was given as my case was denied and closed by the insurance company. I now live on the dsp. Thank you for the opportunity to be heard.

Kind regards

Peter Turnbull
