**FIRST REVIEW OF THE WORKERS COMPENSATION  
SCHEME**

---

Further to my recent submission dated 1st September 2016. I would kindly like to ask if the following questions can be added to the inquiry.

1. Will the government repeal the cap on payments at 260 weeks for workers who were injured on or before the 19th June 2012 if proven to have no work capacity and a documented genuine injury.
2. If not willing to repeal the cap, will the government consider lowering the WPI threshold for the cap on payments at 260 weeks to 15% to bring it back inline with the threshold for commutation and workplace injury damages claims for people injured on or before the 19th June 2012.

Thank you for your time.
