## INQUIRY INTO OFF-PROTOCOL PRESCRIBING OF CHEMOTHERAPY IN NSW

**Name:** Ms Cheryl Mae Hingerty

**Date received:** 30 September 2016

---

Partially  
Confidential

To Whom it May Concern, Dearest Dr Phadke cared enough about me to think long and hard re the dosage .. to remove Ovarian Cancer ., I would need .....  
He gave me a dosage with minimal side effects ... almost none / but with  
MAXIMUM results

..... A heavier dose , possibly could have caused serious health problems ,  
as I am a sensitive highly ALLERGIC person at MAXIMUM RISK. ....  
DR PHADKE has enabled myself to achieve a cancer indicator score of 10. ....  
How Good is that? Thank the God above Dr Phadke valued patients wellbeing more  
than rigid formula..... Dr Phadke liasoned with the best there is

. Dr For drainage of my lungs  
.. Also to remove surgically any cancer present. His choice of a  
team to heal myself was BLESSED. .... Any criticism of Dr Phadke by  
Jill Skinner allows her to show ignorance of the highest degree. .... Dr  
PHADKE becomes one with his patients. He puts them before himself..... Dr  
has completely honoured Dr Phadke's work..... I am now in  
remission

..... I am forever in debt to Dr Phadke for his whole lifetime  
researching ways to combat cancer and his joy with recovery.

Those who condemn genius have interrupted extremely valuable work.

.....  
Jill Skinner should try chemo herself before she criticises dosages,.

Cheryl Mae Hingerty.
