Submission No 15

INQUIRY INTO OFF-PROTOCOL PRESCRIBING OF CHEMOTHERAPY IN NSW

Name: Mr Richard Newburg

Date received: 14 October 2016

I write this in support of Dr Kerin Phadke, who treated my wife Marcia with chemotherapy for Non-Hodgkins Lymphoma over the past year or two. This treatment was successful and Marcia's tumours have gone and she is now in remission.

At all times Dr Phadke inspired us with confidence in his professional expertise and his good humour is exceptional. We would recommend Dr Phadke as brilliant oncologist and a caring, wonderful man.

Richard Newburg
