Confidential

The Director, Select Committee on Off-protocol Prescribing of Chemotherapy in New South Wales

Dear Sir / Madam

My mother passed away after a long battle with cancer in February 2006. Her oncologist was Dr Kiran Phadke of whom she always spoke highly.

She thought he was a compassionate man and told us that she thought him to be a good doctor. I know nothing of her treatment under his care but I do know Dr Phadke socially. He appears to me to be a man of good character and very professional on the few times he has talked of his medical career and practice.

Yours faithfully
