The Director  
Select Committee on Off-protocol Prescribing of Chemotherapy in NSW  
Parliament House  
Macquarie Street  
Sydney NSW 2000

SELECT COMMITTEE

I have been a patient of Doctor Phadke for the past four years. He has been treating me for a blood complaint, Polycythaemia Rubra Vera. I am very satisfied with his treatment, as I have found him always very concerned with the medication and the various side effects caused, willing to make alternative arrangements when necessary.

I have found him to be a caring and considerate practitioner.

Yours faithfully,

Kevin Moran
